

FOR ANIMAL USE ONLY

Tylosin Tartrate Pure Phenix®

Reg. No. G1043 (Act 36/1947)

An aid in the prevention of mycoplasmosis in broilers and replacement pullets.

■ STORAGE INSTRUCTIONS

Store in a cool, dry place.

■ COMPOSITION

Tylosin tartrate 100 % m/m

■ WARNINGS

- Do not slaughter fowls for human consumption within 3 days of last treatment.
- Keep out of reach of children, uninformed persons and animals.
- Although this remedy has been extensively tested under a large variety of conditions, failure thereof may ensue as a result of a wide range of reasons. If this is suspected, seek veterinary advice and notify the registration holder.

■ DIRECTIONS FOR USE

Use **only as directed**

NB: Make fresh solution daily.

Dilution rate: 100 g / 200 L water. Mix the powder with a small volume of warm water first and ensure that it is dissolved before making up to volume. Supply as the only source of drinking water for the first three days of life and again for 24 hours three to four weeks later. Replacement pullets may be treated for a further 24 to 48 hours after any stress, e.g. vaccination. If treatment is ineffective consult a veterinarian.

■ PRESENTATION

100 g, 10 kg.
